RECEPTION April 22nd, 6 - 9PM

SECOND SATURDAY ART WALK May 8th & June 12th

Kevin Barry Gallery
25 Victory Blvd
Staten Island, NY

A short walk from the Staten Island Ferry

Decades of unrestrained consumption and population growth are exhausting the Earth's ability to sustain such demand. Humanity's survival is being threatened unless it can figure out a way to reverse this trend and consider the environmental impact of its actions.

Shifting Normal explores the changes some Americans are making to address this issue in order to live in a more sustainable manner. Shifting Normal is part of the Provocative Nation project. Learn more at www.provocativenation.com.
